Department of Sanskrit & Physical Education
Srikrishna College

Report Submitted by

Rajib Sinha

Designation:- Assistant Professor & Head

**Department:-Sanskrit , Srikrishna College, Bagula,
Nadia,West Bengal, India, 741502**

Abstract

The Vedas are considered to be one of the most sacred scriptures of the Hindu religion. They are claimed to be among the world's oldest scriptures. Veda is said to be the treasure vault to wisdom and knowledge. It is noted that Vedas are eternal and vibrate in the outer dimensions of the world of Brahmins.

It is proved that modern-day discoveries, inventions, theories, concepts are broadly based on Vedic knowledge/literature. Many scientists have studied Vedic literature to get in-depth insights into scientific, spiritual, psychological, behavioural knowledge.

We give more preference to character, spiritualism, philosophy rather than wealth, materialism and science. The present world gives reverence to wealth power violence and diplomacy whereas we rely in truth, non-violence and mortification. We still believe in idealism and wish to lead an ideal life.
