

SRIKRISHNA COLLEGE:

CAMPUS AREA AND

INFRASTRUCTURAL FACILITIES

Srikrishna College, Bagula, affiliated to the University of Kalyani is one of the best colleges in the Nadia district. As per infrastructural facilities are concerned the college has one old main building along with FB-IV block and FB-V Block. Each building is provided with well illuminated, spacious classrooms, staff rooms and separate toilet arrangement for boys and girls. The College is trying to upgrade its classrooms and laboratories with the modern equipment and tools to facilitate effective teaching learning through modern tools and techniques. At present the college has well-ventilated classrooms, administrative office, a central library, an air-conditioned auditorium and separate common rooms for boys and girls. The largest and most spacious classroom with LCD projector facilities of our college is used for organising seminars till 2019. Though there are no specific infrastructural facilities for differently-abled students, the college is sensitive towards such students and extends its full cooperation. The Boys' Hostel of the college at present is in a non-living condition due to scarcity of funds. The college has not been able to provide health care facilities within the campus. But the College has Students health Home Scheme from which they can get maximum of ten thousand rupees in any kind of health issues. In addition to that a modern gymnasium, parking facility (available to both students and faculty) and a huge playground in front of the college are there. The College provides an eco-friendly environment to its students with rainwater harvesting and other green initiatives. The College has taken measures to address the need for vigilance and security. The college campus is CCTV-enabled to cater to the comprehensive safety requirements of a campus. Extension of CCTV set up in the Science building has been done in the year 2016-17 keeping in mind the priorities of security needs. The College has installed Air conditioners in the library room, Accounts and Administrative office, library, staff rooms and in the newly renovated auditorium in 2019-20.

Adequate purified drinking water facilities are available for the students and staffs of our college. Adequate toilet facilities for staff and students are also available and regularly maintained by the sweeper of the college.

Continuous power supply is ensured by the generator.

Waste bins are placed at different places within the college campus to keep the campus clean as a measure of waste management system.

A. Class Rooms

Srikrishna College has 31 class rooms for taking theoretical classes and 19 laboratories to explore experimental learning. Each of these rooms is equipped with black as well as white boards, adequate desks and benches. All the class rooms of main building are Wi-Fi enabled. Sometimes classes are conducted in laboratories also due to the insufficient number of class room.

b) Photo of Class Room

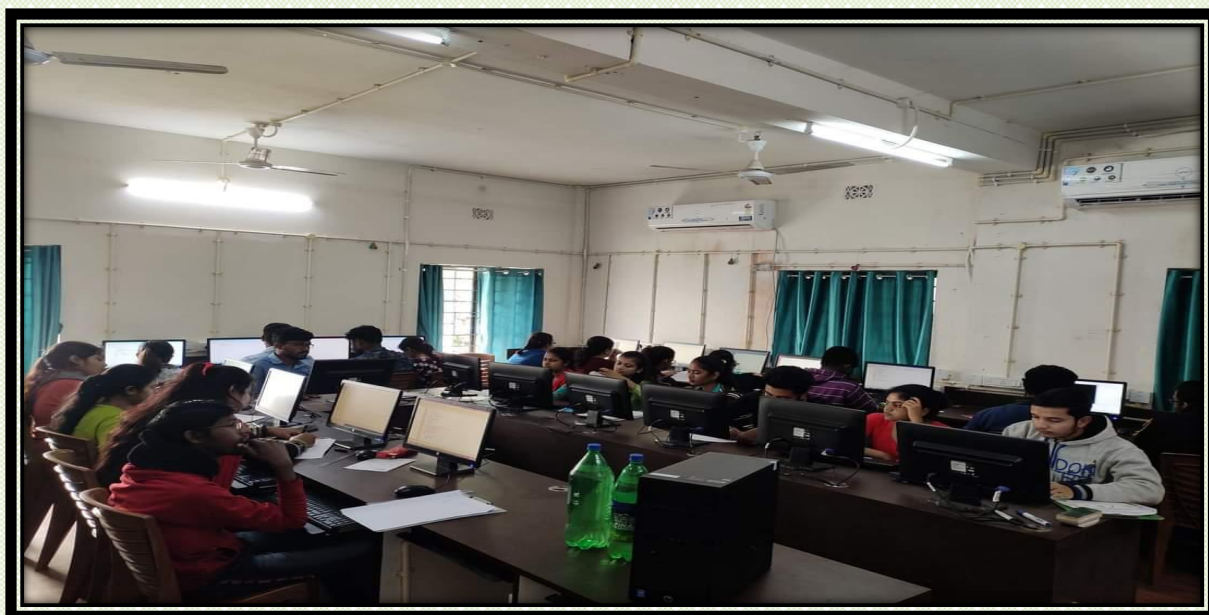

The college has five classrooms with LCD projectors and microphone system. A new virtual classroom with smart board and other modern tools has been set up in the college for making teaching learning more effective. From the academic session 2017-18 honours classes are regularly arranged in this virtual class room. Students are enjoying this new set up very much.

B. Laboratories

At present Srikrishna college has 19 laboratories for the lab-based department: Physics, Chemistry, Mathematics, Computer Science, Geography and Commerce to explore temper and spirit of enquiry among the students. Computer Science department has two laboratories: One Software lab and one Hardware lab. Both the laboratories are air-conditioned. Both Physics and Chemistry department have five laboratories each as a part of the curriculum. All the laboratories are well equipped with the latest instruments and apparatus to facilitate all the students of Honours and general course to do their experimental learning. Laboratory rooms are large enough for air circulation and free movement of the students. All the laboratories are well maintained and upgraded time to time.

F. Sports Facilities

Regarding sports facilities are concerned; a large playground in front of the college is used for college sports and other cultural activities. College playground is also allowed to use by local schools or other social organization for organizing annual sports, competition and fairs. One Basketball Court is made in front of the main building of the college. Large number of Students have participated and won gold and silver medals in university, state and in national level games. Their performance in international level sport meet is equally commendable. One of our students won silver medal in international (SAG) in 2018-19 and another student participated in international Kho-Kho event in the year 2018-19. Sports facilities are made available for all the students. Physical Education Department always looks after the up-gradation and improvement of sports facilities.
